

KEERTHANA P

AI Engineer | Bangalore | +91 8940487521 | keerthanakeerthana5008@gmail.com | [Github](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

AI Engineer experienced in building Generative AI applications with Python, LangChain, ChromaDB, and LLMs. Skilled in RAG pipelines, semantic search, prompt engineering, vector databases, RESTful APIs, and multi-agent workflows using CrewAI.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Databases: MySQL, PostgreSQL

AI/GenAI: LangChain, LangGraph, CrewAI, RAG, Prompt Engineering, ChromaDB, Hugging Face, Embeddings, Groq API

API Development: RESTful APIs, CRUD Operations, API Integration, JSON, API Testing

Frameworks: Django, Fast API

Tools: Git, GitHub, Postman, VS Code

Core CS: OOPs, DBMS, Data Structures & Algorithms, Exception Handling

PROJECTS

AI Diagnosis Recommendation System

Technologies: Python, Streamlit, LangChain, Groq LLM

- Developed an AI-powered healthcare application that analyzes user-reported symptoms and generates preliminary diagnosis recommendations.
- Integrated LangChain with Groq LLM to provide context-aware health insights and personalized recommendations.
- Designed an interactive Streamlit interface for symptom input and AI-generated recommendations.
- Applied prompt engineering techniques to improve the relevance and consistency of AI-generated responses.
- Built a user-friendly workflow for collecting symptoms and presenting AI-assisted healthcare suggestions.

AI Interview Coach

Technologies: Python, Streamlit, LangChain, Groq LLM

- Developed an AI-powered interview preparation application that generates technical interview questions based on uploaded resumes.
- Integrated Groq LLM with LangChain to generate relevant interview questions and evaluate candidate responses.
- Provided AI-generated feedback and improvement suggestions based on user answers.
- Designed an interactive Streamlit interface for resume upload, interview practice, and real-time AI assistance.
- Applied prompt engineering techniques to improve the quality and accuracy of AI-generated responses.

Voice AI Assistant

Technologies: Python, LiveKit Agents, Groq LLM, Deepgram, Cartesia

- Developed an AI-powered voice assistant capable of real-time conversational interactions.
- Built an Agentic AI workflow using LiveKit Agents to manage speech processing, reasoning, and response generation.
- Integrated Deepgram for Speech-to-Text (STT), Groq LLM for intelligent response generation, and Cartesia for Text-to-Speech (TTS).
- Enabled low-latency voice conversations through real-time audio streaming and AI-driven dialogue management.
- Designed a modular architecture for scalable and natural voice-based user interactions.

EXPERIENCE

Resource Executive

Job World Private Limited, Bangalore | May 2025 – Sep 2025

- Managed candidate sourcing and initial screening for various job requirements.
- Communicated with candidates regarding interview schedules and job opportunities.
- Maintained recruitment records for 100+ candidates and coordinated interview schedules with hiring managers.
- Screened and sourced 30+ candidates per week for IT and full-stack developer positions.

Training & Certification

Python Full Stack Development Training

Besant Technologies, Bangalore | October 2025 – Present

- Completed hands-on training in Python Full Stack Development covering Python, Django, React.js, PostgreSQL, REST APIs, Git, and GitHub.
- Developing hands-on projects and gaining practical experience in full-stack web application development.

EDUCATION

B.E. COMPUTER SCIENCE AND ENGINEERING:

Erode Sengunthar Engineering College

June 2020 - May 2024 (CGPA: 8.67)

HSC:

Kalaimagal Kalvi Nilayam

June 2019 - March 2020 (Percentage: 67%)

SSLC:

Kalaimagal Kalvi Nilayam

June 2017 - March 2018 (Percentage: 83%)
